A Computer Science Graduate from the University of the Philippines Visayas, passionate about games, software development, AI, and embedded systems. I blend technical precision with creative storytelling, bringing ideas to life through multimedia production, video editing, and design. Skilled in problem-solving, system design, and cross-disciplinary collaboration, with a proven ability to adapt, lead, and think outside the box. I aspire to build innovative, human-centered tech solutions that bridge technology and creativity while continuously learning and growing.

### Professional Experience

---

#### Video Editor *The Esports Garage, Remote | August 2025 - Present*

- Edited **mini-documentary videos** focused on *League of Legends esports*, highlighting players, storylines, and tournament moments.
- Improved production turnaround** from one video every 1–3 months to **three videos within two months**, significantly increasing content output and audience engagement.
- Collaborated closely with writers and producers to craft compelling narratives and maintain visual consistency across episodes.
- Utilized **Adobe Premiere Pro, After Effects, and Studio One 6** for editing, motion graphics, and sound design to ensure professional, broadcast-quality results.
- Contributed to refining the channel's creative workflow and post-production pipeline for better efficiency and storytelling impact.

#### Freelance Computer Repair Technician *Self-Employed | January 2025 - Present*

- Diagnosed and repaired hardware and software issues** for desktops and laptops, ensuring reliable system performance and client satisfaction.
- Performed OS installations, system optimizations, data recovery, and virus/malware removal.
- Built and upgraded custom PCs based on client requirements for gaming, creative work, and office use.
- Provided remote and on-site technical support**, maintaining strong client relationships through clear communication and timely service.
- Advised clients** on preventive maintenance, component upgrades, and cost-efficient technology solutions.

#### Information and Communications Technology Office Intern *Department of Science and Technology, Iloilo, Philippines | June 2024 - July 2024*

- Developed a Geographic Information System (GIS)** for Project ASUCAR (Accelerating Sugarcane Products Utilization for Commodity Availability and Reliability) — a collaborative initiative by DOST VI, Pharma GalenX Innovations, Inc., and the University of San Agustin – Center for Natural Drug Discovery and Development.
- The project aimed to **enhance the traceability and branding of regional sugar products** by establishing Geographic Indication (GI) links between product identity and specific geographic origins.
- Utilized biomarker data to support product differentiation and highlight the unique qualities of regional sugarcane, strengthening regional branding and market recognition.
- Assisted in setting up and operating audio-visual equipment** during a corporate conference, ensuring smooth technical execution and high-quality presentations.

### Education

---

#### Bachelor of Science in Computer Science *University of the Philippines, Miagao, Iloilo, Philippines | August 2021 - June 2025*

### Key Skills

---

- Video Editing
  - Music Production
  - Software Development
- IT Support

### Certifications

---

#### Introduction to Cybersecurity (Cisco) | August 2025
